Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

Claim 23 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Trapp et al. (US 5,983,516).

Claim Rejections - 35 USC § 103

Claim 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over Trapp. Trapp is considered to disclose the claimed invention, as rejected above, except for the claimed snap fit. It would have been an obvious matter of design choice to provide a fastening means, such as the claimed snap fit, since the fastener disclosed on the face of the Trapp reference would perform the same fastening function regardless of the type of fastener used.

Double Patenting

Claims 23-24 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 15 of U.S. Patent No. 6,692,556 in view of Line (US 2,758,719). Applicant's assignee claims each element of the currently claimed invention, except for the claimed docking piece having a housing detachably engaged in a slot. Line, another desiccant cartridge, is considered to disclose a docking piece having a housing detachably engaged in a slot at column 2 lines 44-61. It would have been obvious to one skilled in the art to combine the claimed patented subject matter of applicant's assignee earlier patent with the docking piece having a housing

detachably engaged in a slot, as considered disclosed in Line, for the purpose of removing and/or changing a cartridge assembly without disruption of the system to which it is connect. Furthermore, applicant's assignee has patented the claimed invention except for the currently claimed snap fit. It would have been obvious matter of design choice to provide a fastening means, such as the claimed snap fit, since the patented fastener would perform the same fastening function regardless of the type of fastener used.

Response to Arguments

Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new grounds of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
